

In association with www.historicgraves.ie Project!

This project was made by some local dedicated people who have an interest in genealogy, finding graves of loved ones, doing their family tree, or just interested in knowing where their ancestors/family lie.

St. Mary's Churchyard project was transcribed – photographed - sketched on 15th April 2014 & uploaded fully onto the website on 14th May 2014.

Tools used: Led Torch with 245 lumens + Mirror + Great eye-sight!

This is our 6th Graveyard we have used the Led Torch with, and it was a great help when transcribing all those headstones – a lot of inscriptions could not be seen with the naked eye - it was a very useful implement to have!
